EXPERIENCE --- ≈ 6 years

Mobile Software Developer Warsaw, Poland
VMWare Feb 2022 - Present

Worked as a part of a team over a UEM framework. General support of Java and Kotlin code.

Mobile Software Developer Warsaw, Poland
Allegro Oct 2019 - Aug 2021

Team was working on a framework, which allowed to create and serve app screens from backend without browsers.
As a part of a team, I was developing core framework part, both Android and Backend on Spring Boot.
Screen layouts were served on request from backend and a resulting screen had only native Android and iOS views.

Android Developer Warsaw, Poland
Vestiacom Aug 2018 - Sep 2019

Smart-home application for control over various devices via specialized WiFi-hotspot. Both general support and implementing new features in Android application. Additionally, invoked and succeeded in refactoring code base from Java to Kotlin.
Proposed and started a practice of reactive framework, RxJava 2, in that project. Occasional work with Redis due to project specifics.

Android Developer Warsaw, Poland
Proexe Apr 2017 - Jul 2018

Developed Android application for MedTech, which had integrated Bluetooth LE and C++ library via JNI.
Additionally, developed an Android application to control an inspection tool.
An inspection tool is a camera on a telescopic tube with joystick and lights.
Android application had to control camera settings, lights, allow simple image post-processing.
Also, it served as a local video streaming server.

Software Developer Odessa, Ukraine
Freelancer Aug 2015 - Jul 2016

Various minor Android apps.
Periodically, developed and supported minor backends, mainly CMS.
